

DESCRIPTION

The Guilt-Free HTV!

LOTS of gorgeous colors right out of the gate, a substantially lower application temperature (saves energy), hot peel (saves time), layerable, and yes (drumroll please): the ink to create all these beautiful colors is water-based! This means that all components are recyclable! Six agencies certified that it's environmentally sound and safe to use on substrates worn by even the tiniest earthlings without worry.

Goodbye Guilt - Hellooooooo Creativity!
