Due to the nature of nylon, special care must be taken throughout the decoration process.

PRINTING INSTRUCTIONS FOR NYLON FABRICS

Due to the nature of Nylon fabric, special care must be taken throughout the decoration process. Here are some tips to effectively decorate these products.

Heat Transfer/Screen Printing:

- Garment temperature must not exceed 310°F or 154°C.
- Although possible to do more, only one color screen print is recommended.
- A test sample run is recommended in all printing processes, especially if you have a large order or if your printer does not specialize in printing on Nylon fabrics.
